Fundamentals of Engineering Economics. Chan S. Park | Chan ...

Coupled human and natural systems (CHANS) are complex, dynamic, interconnected systems with feedback across social and environmental dimensions. This feedback leads to formidable challenges for causal inference. Two significant challenges involve assumptions about excludability and the absence of interference. These two assumptions have been largely unexplored in the CHANS literature, but when ...

Causal Inference in coupled human and natural systems | PNAS

Chan S. Park is currently a Professor of Industrial and Systems Engineering at Auburn University. He received the M.S. and Ph.D. degrees in industrial engineering from Purdue University and the Georgia Institute of Technology, respectively.
