The government of the United States of America is very unique. While many Americans complain about high taxes and Big Brother keeping too close an eye, the truth is that American government, compared to most foreign democracies, is very limited in power and scope. One area American government differs greatly from others is its scope of public policy.

America is different, by surveying these rather diverse perspectives on American development, and by bringing them together into a framework of "path dependence." This synthesis concentrates on early events that sent America down its distinctive path, the subsequent conflict over that path, and the choices that were made along the way, many of which reinforced the Amer
