Click here to find AWS specifications which is a dependable, efficient recognition system. The classifications defined in these standards allow the identification of filler metals uniformly, without consideration of manufacturers' trade names or brand names. AWS A5 Filler Metal Specifications are ANSI Approved and Department of Defense Adopted.

AWS Bookstore

In 2001, after years of hard work by the committee members, the American Welding Society issued AWS D17.1:2001, Specification for Fusion Welding for Aerospace Applications. Specifications used for aerospace welding deal primarily with fusion welding, except for the relatively few that deal with friction welding.
