Bmw 540i Service Engine Soon

The "Service Engine Soon" light in your BMW is similar to a "Check Engine" light in other cars. Your car has a computer which runs diagnostic tests while your car is running. If something comes back faulty or negative, the light comes on.

The Meaning of the "Please Service Engine Soon" Light on a BMW

If your BMW check engine light (or service engine soon light) stays on it means that the Onboard Diagnostic System (also known as Digital Motor Electronics DME) has detected a problem with the emission system, engine, or transmission. BMW check engine light may come on due to something as simple as a loose gas cap but it can also be an indication of an expensive engine or transmission problem.

How to diagnose a Service Engine Soon light on a BMW

The CHECK ENGINE light (or SERVICE ENGINE SOON) will only come on when the engine management system has recorded a fault. In order to know what the fault is, we must use a code reader tool to check the stored fault (s). We do offer a fault code reader and reset tool that you can use to check the codes. The tool will also reset the oil change and inspection reminders for most earlier models.
