Breaking the Speech Barrier: Language Development Through ...

When patients have a language barrier, it's often related to when they migrated to the United States. The largest group of migrants in the last 30 years speaks Spanish. 5 With only 5% of U.S. nurses identifying as Hispanic or Latino, it's very common for patients in this group to encounter a language barrier. 6 (No publicly available record of language skills of U.S. nurses exists.)
