Owner manuals, installation instructions | GE Appliances

The 9HA high efficiency, air-cooled gas turbine is an industry leader among H-class offerings, and now the 9HA.01 is at the heart of the world's most efficient combined-cycle power plant. With two available models—the 9HA.01 at 448 MW and the 9HA.02 at 571 MW—customers can easily select the right capacity to meet their generation needs.

9HA Gas Turbine | GE Power

The 9FA is the 50 Hz gas turbine choice for large combined cycle applications. Since the 9FA is an aerodynamic scale of the highly successful 7FA gas turbine, it too has experienced industry-leading reliability. Key advantages of the 9FA gas turbine include its fuel-flexible combustion system and higher output performance.

GE Power Systems Gas Turbine and Combined Cycle Products

GE is proud to celebrate the 30 year anniversary of the 7F gas turbine. The 7F technology is core to GE Gas Power's portfolio of products and services. Its installed base of 950+ units is a testament to the engine success and customers' trust to partner with GE to achieve high performance and operational reliability.
