The King Air C90GTx is sure to become your new favorite aircraft.

King Air C90GTx - Beechcraft

I wrote about maintenance inspections back in 2010, but I find myself discussing it every day. The 200-hour Phase Inspection Program. High-use King Airs must have a phase inspection every 200 hours. A King Air that flies around 33 hours/month or more is going through a phase inspection every 200 hours.

Beechcraft King Air. The King Air series offers flexible, reconfigurable interiors, making them equally adept at accommodating passengers, cargo, air ambulance or other missions. It's no surprise organizations choose Beechcraft to transport their important personnel and cargo - no matter where they fly.

Beechcraft Aircraft | Turboprop and Piston Models

The Beechcraft King Air family is part of a line of American utility aircraft produced by Beechcraft. The King Air line comprises a number of twin-turboprop models that have been divided into two families. The Model 90 and 100 series developed in the 1960s are known as King Airs, while the later T-tail Model 200 and 300 series were originally marketed as Super King Airs, with the name "Super ...
