ECLIPSE TE2000 Differential Interference Contrast ...

Nikon Eclipse TE200/TE300 - a series of inverted infinity-corrected microscopes whose side photo port makes them an excellent choice for digital photomicrography. Nikon's Eclipse TE200/TE300 inverted microscopes are suitable for use in a broad spectrum of application fields. The two models were developed in the late 1990s but are still a good choice for photomicrography applications when combined with our LM digital adapters with plan achromatic precision optics.
