Time Series Analysis  
And Its  
Applications  
Solution Manual

Time Series Analysis  
comprised methods for  
analyzing time series  
data in order to extract  
meaningful statistics  
and other  
characteristics of the  
data. It is different  
from Time Series  
forecasting which is  
the use of a model to  
predict future values  
based on previously  
observed values.
